

Instructions

MRT Engineering bump steer adjustable tie rod kit BMW 3-series

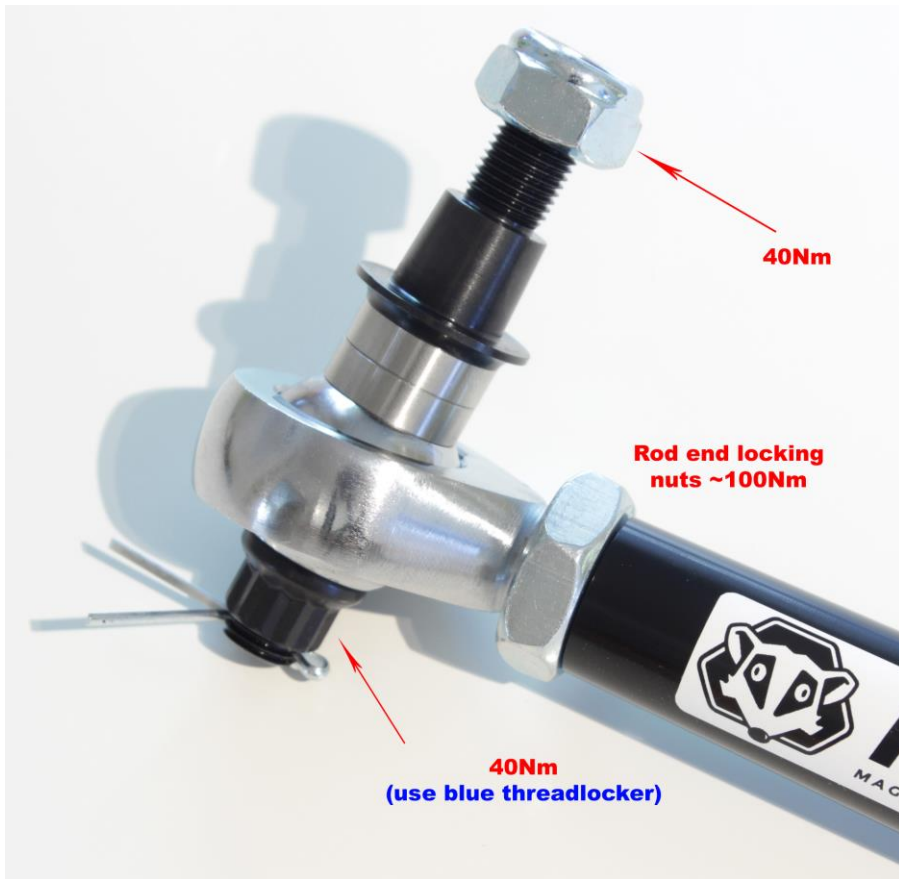

Kit includes (pre-assembled parts):

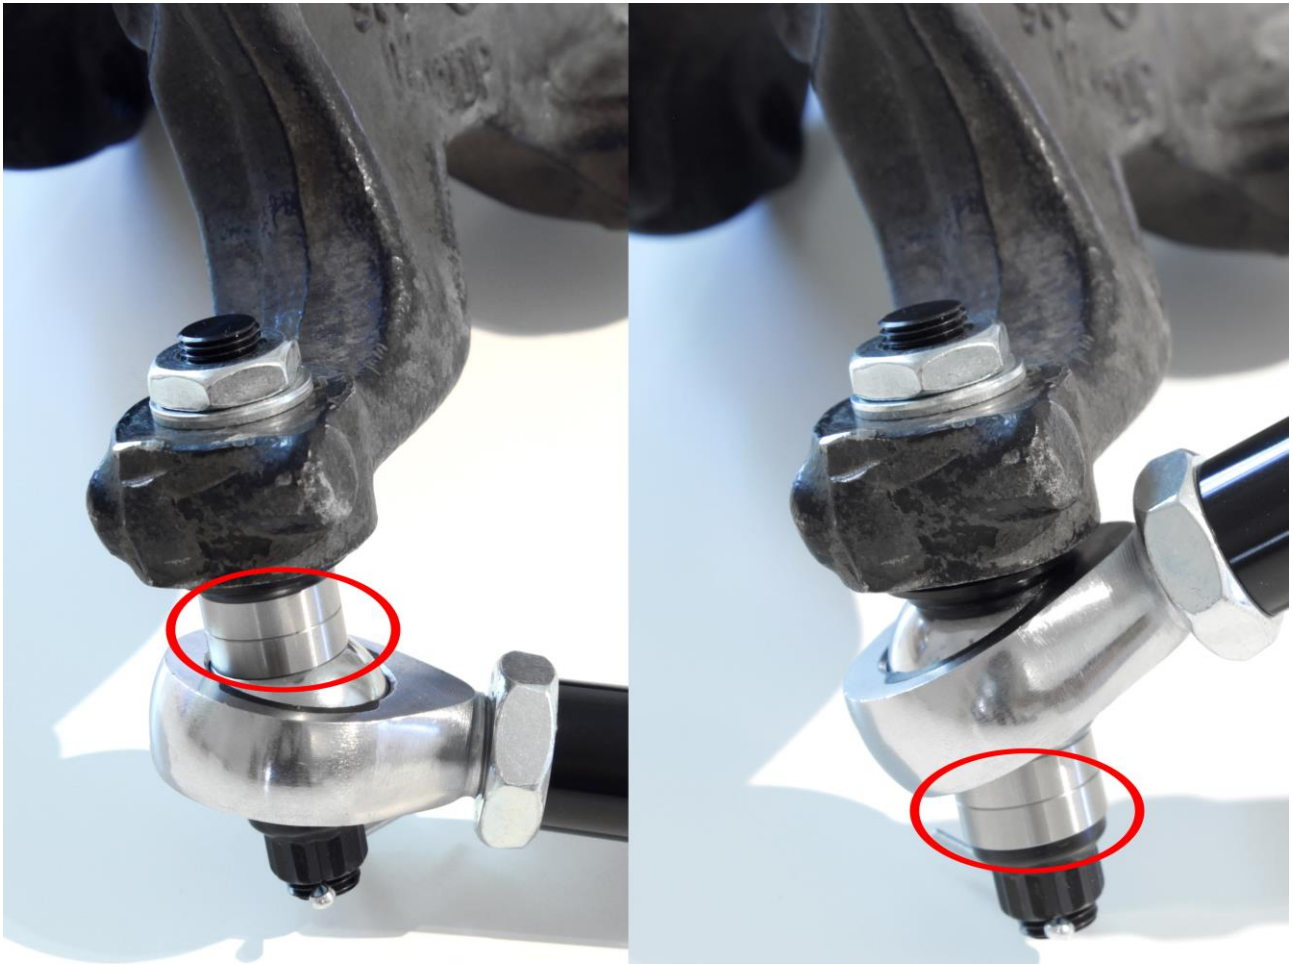

2x AW-7075 tie rod with new hardware

Notes:

- Fits all BMW E30, E36, E46 struts (except iX), E36/E46/E90 type tie rod inner ends required (M14x1,5 outer thread)
- Minimum wheel size 15" (370mm inner diameter) on E30 strut, 16" on E36 and E46 struts
- Racing part with NO warranty, not for use on public roads
- Manufacturer disclaims all liability for direct, indirect, incidental or consequential damages, including damage or loss of equipment, cost of purchase or replacement of goods, accident or injuries, or claims of the purchaser that result from the use of the part

**Change bump steer geometry by
relocating the shims, all shims
must be used!**

Min. thread 15mm

NOTE:

- Remember to check bolt tensions after first 100km/miles
- Check bolt tensions occasionally
- Check tie rod kit condition before and after every trackday
- Regular check, cleaning and maintenance can increase tie rod kit lifetime significantly
